

## **AutoGyro Appoints new Distributor**

### **Aerosport Aviation Ltd,     Hildesheim, 1 July 2015**

AutoGyro are proud to announce the dawning of a new era in New Zealand with the appointment of Aerosport Aviation Limited of Cambridge as our distributor for AutoGyro products.

Andy Wall, Chief Sales Officer AutoGyro GmbH says: "Aerosport is exactly what is required to take our product forward to new heights! Anton and Jacky and their team offer a professional and thorough service whilst retaining that friendly and down to earth touch," adding "Their experience and knowledge of the local Aviation scene and global aviation is unrivalled and we very much look forward to working together to help existing and future customers realise the potential of the AutoGyro product in such a beautiful location."

The next years promise to be extremely exciting in the AutoGyro world, recently adding the first ICAO Type Certified modern factory built Gyroplane, this is absolutely the tip of the iceberg. New product development including additional motors, new models and developments to the existing fleet ensure that AutoGyro continues to offer the biggest and best selection with the most up to date and technically advanced of Gyroplanes.

Aerosport Aviation is looking forward to helping present and future customers in the AutoGyro world. Having just returned from a visit to Germany and our AutoGyro Factory in Hildesheim to ensure they gain as much knowledge of the AutoGyro to be able to deliver a high standard of sales and service from their Aviation Centre at 251 Lee Martin Road, Cambridge, New Zealand.

AutoGyro's long standing relationship with Solo Wings in Tauranga is now further enhanced with the outstanding level of service, ongoing maintenance, parts supply and flight training that Colin and his team provide for the Gyroplane industry.

About the AutoGyro Group:     The AutoGyro Group is a world leader in the development, production and distribution of Gyroplanes. Since its foundation in 1999, the ultra-light aircraft specialist has enjoyed constant growth and now has a team of more than 140 highly qualified specialists and engineers. With a global network of distributors in over 40 countries, AutoGyro aims to deliver unlimited and safe flying enjoyment to its clients with the versatile gyroplanes.
